STANDARD PHASE

Mystery Box Symbol

- When help notes fall, some symbols may be affected, being replaced with help notes.
- If this happens, a warrior will appear on the screen, crossing the game area until he arrives at the notes.
- Once he arrives at one of them, he will turn it into a STICKY WILD symbol and launch a RESPIN.
- The warrior may also turn normal symbols into STICKY WILDS along the way.
- If there are more help notes, he will keep moving to the next closest one to do the same thing. The previous STICKY WILD symbols will be kept for the next RESPIN.
- When there are no help notes left in the game area, the warrior will leave and the game will continue as normal.

- This event can happen after finishing a spin.

- Getting 3 BONUS symbols gives you access to the free spins phase.
- This phase is accessed with 9 free spins.
- The free spins phase is played with special reels.
- In this feature the WIZARD symbol will only appear in the central reel.
- If the wizard falls in the central reel, he will turn one or several symbols into STICKY WILD symbols.
- It converts symbols from top to bottom starting with the far right reel. It doesn't affect the central reel.
- When a reel is completely converted, it turns into a vertical STACKED WILD.

2.The game is still awaiting different events or player actions. In this case the game is permanently stored in the database and is resumed when the player plays again.
